BAY AREA BEST DOCTORS 2005

Metro is pleased to be the exclusive publisher in our area of the 2005 Best Doctors in America® list. Once again, we've partnered with one of the nation's top doctor referral services, Best Doctors®, to provide you with the knowledge you need to make the best healthcare choices for yourself and your family.

Best Doctors was founded in 1989 by Harvard Medical School-affiliated professors seeking to provide greater access to both medical information and medical care to individuals with serious conditions. Today, it is a leader in connecting patients to the best in medical care, and has been recognized by top news sources, including USA TODAY, CNN, and WOMAN'S DAY, which advised readers, "Before you choose a doctor, check Best Doctors."

The Best Doctors in America list was compiled through a combination of high-technology surveying methods and telephone interviews. Doctors do not provide compensation of any kind in return for a listing. Rather, the doctors that appear on this list are those whose names are submitted time and time again by their peers, physicians who are asked to name the specialist they'd see if they needed one themselves.

The Best Doctors in America list is intended to be used as a guide. There are 383 physicians and 37 specialties included here. Enjoy in good health.
